About the project

- Women's participation in the labor market is necessary for economic growth.
- EUSBSR Forum for Gender Equality and Growth, 3.0 is a project to ensure that gender equality is mainstreamed in models and methods used for innovation in entrepreneurship for economic growth.
- NGOs and nonprofits, universities and research organizations, and municipalities

THE BALTIC INSTITUTE OF FINLAND

MUNICIPALITY OF GORIS (ARMENIA)

Project Aims

- To secure gender equality in policy, strategy, and actions with a focus on innovation.
- To analyze methods used in EUSBSR/EAP countries and use successful examples in future cross-sectoral and cross-border cooperations.
- To create digital reports and results to be used in all partner organizations.
- To better understand structures, interactions, norms, values, and cultures in innovation and entrepreneurship in different societies' support systems.
